## MEMORANDUM

TO:

Office of Legislative Counsel  
Central Intelligence Agency

STAT

FROM:

Beverley C. Lumpkin *B.*

In accordance with our agreement, I am sending you three grey file boxes (approx. 6"x15"x11") containing classified material received by the Subcommittee on International Organizations during the course of its Investigation of Korean-American Relations. While this material consists mainly of staff notes on CIA files, also included are some notes and documents received from other Executive Branch agencies.

It is our understanding that CIA will keep these files together, separate and apart from other materials, so that at any time they could be produced for review by persons possessing appropriate clearances. You should note that jurisdiction over all of the files of the Investigation of Korean-American Relations is held by the Clerk of the House of Representatives; therefore, none of these files should be made available to any person who has not been expressly authorized by the Clerk for such access. It is of course understood that should the Clerk authorize access to files of this investigation containing material originally received from CIA, the Agency must concur in the granting of access.

Files contained in the three boxes are numbered as follows:

001 through 020; 022 through 028; 030;  
034 through 043; 045 through 063.

In the first box, preceding file #001, is the log of classified material which I kept during the investigation. This log is a key to all of our classified material and should also be treated as classified. Some additions to the log have been made in the last few days in preparing the material for the Archives; these recent notations are all in blue ink. The log also shows the disposition of the few files not being sent to you for storage. (#029 is being returned to the Department of the Army. The other files -- 021, 031-033, 044 -- while considered extra-sensitive and treated as classified material by the investigation, do not contain any Executive Branch classified material; they will be stored in the Archives with the rest of the investigation's files.)

Should you have any questions concerning these matters, the person in the Clerk's Office whom we have dealt with is Benjamin Guthrie. The full International Relations Committee historian is Helen Mattas. Neither of these persons, however, will be knowledgeable as to substance.
